

K-Love radio is a listener sponsored radio station. The fact that they are funded speaks to the need and desire of the local listeners to have them available in our local area. K-Love broadcasts positive, family friendly material to an area that already has a plethora of stations offering raunchy and vulgar material that really is not suited for children to listen to. It would be unconsionable to let one of the few stations that actually provides a true service and sets a good example to disappear from our community.
